

GIONTA'S GENEROSITY

In October of 2017, Brian Gionta, Greece Resident and NHL Hockey player, and his wife Harvest, made a commitment to get as many people out to skate as possible.

The Gionta's donated 50 pairs of skates and a dozen helmets to encourage people, young and old to give ice skating a try.

*In 2022, the Gionta's matched their original donation and purchased another 50 pairs of skates!

Supervisor William Reilich and the Town of Greece appreciate the generosity of the Gionta's to enhance the experience of the Community Ice Rink.

HOW WE OPERATE

The ice rink is a natural rink that is dependent on weather conditions for ice quality.

To begin "making" ice, we need an extended forecast of sub 32 degree daily high temperatures and then 3-5 days are required to establish a solid base, your patience is appreciated.

Once established, the quality and safety of the ice is determined by weather factors, patron use/abuse and/or maintenance issues.
"OPEN" signs will be displayed when the ice rink is deemed safe and useable.

Ice rink Status will be determined by 1:00pm each day.
